Scripture Man Instructions for Assessment Review

Copy a game board (page 1) of each student. Cut out the number squares to the left and put in a basket or bag. Students need to fill out their own game board drawing the symbols on the squares as directed.

Ask the 28 assessment questions with multiple choice answers. Students write down what they think the correct answer is on the answer/ scoring table. After all students have written down an answer, the correct answer is revealed. Then the teacher draws one of the Letter/Number squares and calls it out to the class (like Battleship) whatever is written on that students game board are the points they receive for that question. They only are awarded points (good or bad) if their answer was correct. Play continues until all 28 questions are answered. Students tally up their points.
